CAUTION

Always read the manual before installation. Failure to follow instructions properly could result in property damage or personal injury.

Altering parts of your Gumax® veranda can result in voiding your warranty in all cases. Altering parts means other than amendments mentioned in the installation manual.

Work safely. Always wear safety gloves and safety goggles and use hearing protection. Wear gloves and a face mask when operating the saw and drilling machine.

Keep batteries out of the reach of children.

Store this manual so that you can check it at another time.

When using parts other than those provided by Gumax®, the warranty on the Gumax® construction will expire unless otherwise advised by your Gumax® dealer. Think of other parts like non original manufactured roof plates or support structures.

LED lighting should always be connected to a grounded wall socket. The socket needs to be connected to a residual current device.

Be aware of water near electrical equipment.

Transport and store the parts of the veranda in the original packaging to avoid damage to the product.

Before installing a part, make sure it is not defective. If you find a defect, take photos clearly showing the defect and contact your dealer.

Never pull on the electrical cord when disconnecting the plug from the socket. Grab the socket at its intended grooves. Pulling the cord can result in damage to the wire or the socket.

Do not attach electrical wire using nails or staples.

WARNUNG

Lesen Sie vor der Installation immer die Montageanleitung. Die Nichtbeachtung der Anweisungen kann zu Sachschäden oder Verletzungen führen.

Wenn Sie selbst Änderungen an Teilen Ihrer Überdachung vornehmen, führt dies in jedem Fall zum Erlöschen Ihrer Garantie. Dies bezieht sich auf andere als die in der Montageanleitung angegebenen Änderungen.

Arbeiten Sie sicher. Tragen Sie immer Sicherheitsschuhe und Schutzbrillen und tragen Sie beim Sägen und Bohren Gehörschutz, Handschuhe und einen Mundschutz.

Bewahren Sie Batterien außerhalb der Reichweite von Kindern auf.

Bewahren Sie diese Anleitung immer an einem sicheren Ort auf, damit Sie jederzeit darauf zugreifen können.

Bei der Verwendung von Nicht-Teilen erlischt die Garantie für die -Konstruktion, sofern nicht anders von Ihrem Händler empfohlen. Denken Sie hierbei zum Beispiel an die Verwendung anderer Arten von Dachplatten oder Pfosten.

Die LED-Beleuchtung muss an eine geerdete Steckdose angeschlossen werden. Die Steckdose muss an einen Fehlerstromschutzschalter angeschlossen werden.

Achten Sie auf elektrische Geräte in Kombination mit Wasser.

Transportieren und lagern Sie die Teile der Überdachung in der Originalverpackung, um Produktschäden zu vermeiden.

Prüfen Sie vor der Installation eines Teils, ob es Defekte aufweist. Wenn Sie einen Defekt feststellen, machen Sie Fotos und wenden Sie sich an Ihren Händler.

Fassen Sie immer am Stecker an, wenn Sie ihn abziehen möchten. Ziehen Sie nicht am Kabel, da sich dadurch die Isolierung lösen kann.

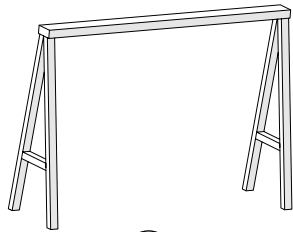

Befestigen Sie die Stromkabel niemals mit Nägeln oder Klammern, wenn Sie sie in das Wandprofil einbauen.

WAARSCHUWING

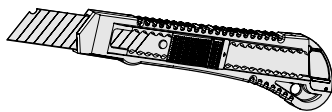

Lees de handleiding altijd voor installatie. Het niet correct opvolgen van instructies kan schade aan eigendommen of lichamelijk letsel tot gevolg hebben.	Bewaar deze handleiding altijd zorgvuldig zodat u deze op een ander tijdstip altijd nog eens kan raadplegen.	Vervoer en bewaar de onderdelen van de LED spots in de originele verpakking om beschadigingen aan het product te voorkomen.
Zelf wijzigingen aanbrengen aan onderdelen van uw LED spots kan in alle gevallen resulteren in het vervallen van uw garantie. Bij wijzigingen wordt hier bedoeld; anders dan de in de montagehandleiding vermelde bewerkingen.	Bij het gebruik van onderdelen die niet van zijn, zal de garantie op de constructie vervallen, tenzij anders geadviseerd door uw dealer. Denk hierbij aan het gebruik van andere typen dakplaten of staanders.	Controleer voordat u een onderdeel monteert of deze vrij is van defecten. Indien u een defect constateert, maak hier foto's van en neem contact op met uw dealer.
Werk veilig. Draag altijd veiligheidschoenen en een veiligheidsbril en maak gebruik van gehoorbescherming, handschoenen en een mondkapje bij zagen en boren.	De LED verlichting dient op een geaard stopcontact te worden aangesloten. Het stopcontact dient op een aardlekschakelaar te zijn aangesloten.	Pak altijd de stekker vast wanneer u deze uit het stopcontact wilt halen. Trek niet aan de kabel, hierdoor kan de isolatie loslaten.
Houd batterijen buiten het bereik van kinderen.	Pas op met elektrische apparatuur in combinatie met water.	Bevestig de elektriciteitskabels nooit met spijkers of nietjes wanneer u deze verwerkt in het muurprofiel.
